### Concluding comments

I regard this project as being complex/ of adequate complexity/ of limited complexity/ simple<sup>1</sup>. My reasons for this decision are given briefly below. (You should refer to the 'Definitions of problem types for projects' document in the Teacher Resource Bank.)

If you have reason to doubt the authenticity or completeness of acknowledgement, or where there has been little or no opportunity for personal supervision, you must take steps (for example an interview) to confirm that the candidate has done the work and is the author of the project. The steps taken and their outcome must be given on a separate sheet, signed by you and attached to this Record Form.

**Details of additional assistance given (if any)** Record here details of any assistance given to this candidate which is beyond that given to the class as a whole and beyond that described in the specification. Continue on a separate sheet if necessary.
